- Single use
- Portable
- Requires no electricity
- No extra lotions or creams
- No mess, no fuss
- Enriched with Vitamin E
- Gorgeous peach scent that will fill your salon in minutes
- Available for both hands and feet

**What is Self Heating Paraffin with Thermowax Technology?** A genuine revolutionary self heating, disposable, self contained, hygienic, single and personal use. Only fifteen to twenty minutes is required for the treatment to deliver its essential ingredients to the skin.

**Why should I use this system for paraffin?** In many cases paraffin blocks in various sizes are still purchased and melted down into a heater and reused much to the dislike of the client, who is forced to double dip into an environment with major hygienic concerns.

**Where can I use Thermowax Self Heating Paraffin and how does it integrate with my current salon services?** Book as a standalone treatment service or easily slot in between existing hair and body appointments. This unique service can be used as part of the following treatments:

- • Whilst having extensions to your hair or eyelashes
- • During any other body treatment, facial or massage
- • Whilst you hair is cut and blow dried, coloured, permed or any other hair treatment service
- • During manicures or pedicures
- • Even while waiting for your salon service to begin

As there is no need to plug into an external power source, Thermowax Self Heating Paraffin can be used by mobile operators in a variety of situations, such as:

- • Any outdoor event or promotion
- • In hotel day spas
- • Home hair and beauty services

**Be quick to order and reserve your stock, as I'm sure these will sell fast! Special buy 5 of each and receive one of each FREE saving over \$35.00**

**Do you want to prevent the spread of bacteria, fungus and other infections through the use of your foot bath?** The Belava tub is designed exclusively to minimise work and **maximise safety** for yourself and your clients. Recommended by NSW Health Department. Simply replace the disposable liners after each client.

The start up kit comes with tub and 5 liners SPECIAL \$49.99
